

Appreciation Letter

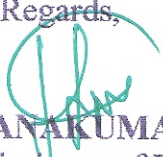

Coimbatore
24/4/2008

Dear Sathishkumar and Bagirathan,

Still it's like a dream for me. I came to know about stem cell banking just before my wife was brought into the operation theatre. I asked Dr.Dheva Sena and Dr.Renuka Devi to help me to bank my baby's umbilical cord blood stem cells. The doctor immediately called LIFECELL persons. I didn't have the hope that I could store my baby's umbilical cord blood stem cells as we didn't have much time. But the LIFECELL team reached the birthing place with the collection kit within 20 minutes from the doctor's call. The umbilical cord blood of my baby was successfully collected and stored. I feel happy and proud that I have ensured the health of my baby and family. I really appreciate LIFECELL for their best and timely service.

Thank you, very much.

With Regards,

(S.SARAVANAKUMARAN, IRS)
